

FOOD SAFETY POLICY

ASCEX TRADING SRL is a company dedicated to sourcing raw materials from strategic regions of Bolivia, as well as cleaning, selecting, and packaging dry products for export. The company has decided to implement a Food Safety Management System based on the international quality standard **ISO 22000**, with the purpose of ensuring the food safety of its products and processes, and protecting both current and future clients.

The Board of Directors of **ASCEX TRADING SRL** views this Management System as a tool to comprehensively manage processes and products, address identified risks, comply with legal requirements, and promote continuous improvement in the system's effectiveness.
